

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-3 (canceled).

Claim 4 (previously presented): A method of processing at least one channel input signal comprising the steps of:

receiving the input signal;

modifying the input signal to produce a second signal;

variably controlling the input and second signals; and

mixing the variably controlled signals to produce variably controllable third, fourth and fifth channel output signals.

Claim 5 (previously presented): A circuit for processing at least one channel input signal comprising:

means for receiving the input signal;

means for modifying said received signal to produce a second signal;

means for variably controlling said input and second signals; and

means for mixing said variably controlled signals to produce variably controllable third, fourth and fifth channel output signals.

Claims 6-7 (canceled).
